

Scrum Master and Scrum Product Owner Preparation – Online Course

Scrum Basics and Preparation Course for Scrum Master and Product Owner Assessment Level I at [scrum.org](https://www.scrum.org)

Basic Program Information

Who should attend

Employees who wish to acquire a basic understanding of the Scrum framework and how it is used to enhance the quality of product development.

What you learn

- After the online training, you will know the basics of Scrum to the extent of the Scrum Guide
- You will be familiar with the Scrum theory, the roles, the artifacts, the events and some agile techniques
- You will be aware of the challenges for Scrum Masters, Product Owners and Scrum Development Teams

How you learn

Guided self-study:

- Explore and deepen your knowledge about Scrum
- Watch videos that explain the principles, methodology and terms of Scrum
- Do exercises to transfer your knowledge by working on prep mails (online tasks)
- Prepare for the Scrum exam by answering questions from sample exams
- Receive a glossary of Scrum terms

Benefits

Participants will:

- Acquire knowledge about the Scrum framework, the roles, the artifacts, the events, and some basics about the agile techniques
- Be fully prepared for the Scrum Master and/or the Product Owner Assessment Level I
