Prove Your Knowledge of Scrum

The Professional Scrum Master™ level I (PSM I) assessment is available to anyone who wishes to validate his or her depth of knowledge of the Scrum framework and its application. Those who pass the assessment will receive the industry recognized PSM I Certification to demonstrate their mastery of the content.

Taking a course is not required and if you feel that you already possess a high level of Scrum knowledge and understanding of the [Scrum Guide](#), you have the option to take the PSM I assessment directly. However, there are courses available to help you prepare for the assessment and gain a stronger understanding of Scrum. Depending on your role, either the 2-day [Professional Scrum Foundations](#) or [Professional Scrum Master](#) course is highly recommended.

Prepare for the Assessment

The PSM assessments are grounded in the Professional Scrum Master [subject areas](#). The assessment is exhaustive and rigorous. Many questions ask you to think about or interpret the meaning from the [Scrum Guide](#), apply content from the [PSM subject areas](#), and in some cases, apply your own experience. Find additional information to help you [prepare](#) for the PSM I Assessment and ways to learn about Scrum.

Search the list of existing Professional Scrum certification holders [here](#) or [see](#) a breakdown on how many people hold certifications.

The cost of PSM I is \$150. [See](#) below for more details.

[BUY PSM I ASSESSMENT](#)

[START ASSESSMENT](#)

In order to prepare yourself for the exam, you can pass a so-called "start assessment". Please register and create your own account with a password.

Once the voucher has been purchased, you will receive a default password that will allow you to take the certification.

Attention: once this default password has been entered and after pressing START, the 60 minute certification will start. You will NOT be able to stop the exam then and the voucher loses its validity.
